

## Grappa di Amarone della Valpolicella

SPECIALS: SPARKLING WINE, RECIOTO, NOVELLO, OLIVE OIL AND GRAPPA

<b>Alcohol:</b>	43% vol.
<b>Area Of Production:</b>	Region: Veneto. In the hilly classic area of Valpolicella.
<b>Grapes:</b>	From grapes of the wine Amarone (Covina, Rondinella and Molinara).
<b>Soil Composition:</b>	Argillaceous and calcareous grounds of glacial and alluvial origin.
<b>Vinification And Production System:</b>	Distillation system: it's a physical process through which, with the use of heating, it is possible to gain all the volatile components of the marcs. To produce Grappa it is necessary to distill the completely fermented marcs immediately after the drawing off, by pressing them out slightly. The distillate thus obtained is at around 75% vol. And it is brought to consumption by adding distilled water. Aged in glass of stell containers, before being bottled, the distillate is refrigerated at a temperature of about -10° c. For about 48 hours and then filtered.
