

Certificate

of CO₂ sequestration

Through the purchase of Nomacorc Green Line closures

Cantine Lenotti

has contributed to the sequestration of

1.044

kg of CO₂ in 2023

The carbon footprint of the product is calculated accordingly to the ISO 14067:2018 Standard.

Vinventions commissioned RDC Environment to perform a comprehensive carbon footprint study of our NOMACORC Green Line product line and South Pole to complete the 3rd-party review & certification.

Issue date : 5th of February

Christophe Robert - Director of Quality Europe at Vinventions
